PROFESSIONAL SUMMARY

- 11+ years of experience in Software Testing (web-based and mobile-based applications) in both Manual and Automation.

- 5+ year of experience into manual testing for mobile applications for android and ios devices.

- 4+ years of experience in API manual testing/web services testing using Postman and also have experience into API automation.

- 2+ years of experience into writing and handling queries using SQL server.

- 3+ years of experience in Playwright and Cypress.

- Very good knowledge on Commerce Systems like Drupal

- 1+ years of experience into javascript and python.

- Experience in Business Analyst role for more than 3 years with a strong background in Agile methodologies, including Scrum, driving cross-functional collaboration, defining clear requirements, and delivering high-quality solutions in iterative cycles to meet business needs and improve operational efficiency."

- Proficient in Robotic Framework (Java Application), JavaScript, Java Selenium BDD, POM , TestNG and Junit framework ,Cypress, and Playwright/test.

- Experienced in BDD Playwright and Katalon Automation Tool.

- 2 years of experience with Appium for handling native apps, web apps, and hybrid apps.

- Skilled in using GitHub for version control.

- 1+ year of experience with GUI Automation Tool Sikuli.

- Experience in Telecom domain and Selenium Automation Framework.

- Knowledgeable in testing processes, test tools creation, and testing artifacts such as test plans and test cases.

- Proficient in using tools like ALM, Jira, and Taiga.

- Excellent communication, analytical, and presentation skills.

- Basic knowledge/experience with Jenkins, Maven, BDD, POM, and JavaScript for Selenium automation.

- Experienced in gathering requirements by collaborating with BA teams.

- Pretty Good knowledge on AWS.

EMPLOYMENT HIGHLIGHTS

QA Technical Lead

Eli Global (collaborated with Fortrex Technologies/Pdcap Services)

April 2018 - Present

QA Analyst

Clovity

November 2016 - April 2018

Test Analyst

CXT Software Solutions

June 2013 - November 2016

EDUCATION

Bachelor's in Electronics & Instrumentation

ITER, BBSR, Odisha, 2013

12th

CHSE, Odisha, 2008

10th

CBSE Board, Berhampur, 2006

TECHNICAL SKILLS

Languages: SQL, Core Java, Unix

Databases: MySQL, SQL Server 7.0, MS Access, PostgreSQL

Operating Systems: Windows 7/8/10

Testing Types: Functional Testing, Browser Compatibility Testing, Usability Testing

Test Management Tools: HP ALM, JIRA, Taiga, Eclipse

Mobile Application Tools: Genymotion, Oracle VirtualBox, Appium, Android Studio

Automation: Katalon, Appium, Selenium, JMeter, Postman

API Testing Tools: Postman

Version Control Tools: GitHub, SVN

CERTIFICATIONS

Certified Software Tester (CSTE)

PROJECT SUMMARY

Health Care System

CXT Software Solutions

Role: Test Analyst

Responsibilities:

- Conducted functional requirement analysis, test scenario identification, and test case writing.
- Performed functional, integration, regression, and smoke testing.
- Identified and reported defects, collaborating with the development team for resolution.

Medical Services Automation System

CXT Software Solutions

Role: Test Analyst

Responsibilities:

- Managed online appointments, patient registration, and medical records.
- Conducted SQL testing for data validation and participated in daily bug discussions.

Arbitrage

Clovity

Role: QA Analyst

Responsibilities:

- Conducted functional, integration, and regression testing.
- Participated in daily bug discussions, ensuring prompt resolution of critical issues.
- Debugged and resolved backend issues using **SQL queries** and database validation.

Invotiate

Clovity

Role: QA Analyst

Responsibilities:

- Conducted functional, integration, and regression testing.
- Participated in daily bug discussions, ensuring prompt resolution of critical issues.
- Conducted functional requirement analysis and performance testing using JMeter.

Kenzen

Clovity

Role: QA Analyst

Responsibilities:

- Mobile application for monitoring human body behavior using Bluetooth devices.
- Conducted API testing with Postman, load testing with JMeter
- Conducted functional, integration, and regression testing.
- Participated in daily bug discussions, ensuring prompt resolution of critical issues.

Vendor Point Management

Eli Global

Role: QA Technical Lead

Responsibilities:

- Designed and implemented UI automation frameworks using **Selenium** and **TestNG**, achieving significant test coverage and efficiency.
- Automated API testing using **Rest Assured**, validating backend services for JSON/XML payloads.
- Conducted performance testing using **JMeter**, identifying bottlenecks and improving system throughput.
- Developed end-to-end test cases using Cypress to automate functional and regression tests.
- Ensuring that all the scripts cover core user journeys and edge cases of playwright script.
- Led a team of manual testers, delegating tasks and transitioning them into automation roles.
- Segmented 2-week sprints into focused manual and automation testing cycles.

Riscore

Eli Global

Role: QA Technical Lead

Responsibilities:

- Designed and implemented UI automation frameworks using **Selenium** using POM, achieving significant test coverage and efficiency.
- Automated test cases with **Katalon** and **Appium**, ensuring reliable mobile app performance.
- Automated API testing using **Rest Assured**, validating backend services for JSON/XML payloads and postman for manual testing

- Conducted performance testing using **JMeter**, identifying bottlenecks and improving system throughput.
- Led a team of manual testers, delegating tasks and transitioning them into automation roles.
- Segmented 2-week sprints into focused manual and automation testing cycles.

VSM (Vendsure Management)

Eli Global

Role: QA Technical Lead

Responsibilities:

Designed and implemented UI automation frameworks using **Selenium** using BDD framework, achieving significant test coverage and efficiency.

- Led a team of manual testers, delegating tasks and transitioning them into automation roles.
- Segmented 2-week sprints into focused manual and automation testing cycles.

PERSONAL INFORMATION

Father's Name: PRS Prasad Rao

Date of Birth: 29/03/1991

Languages Known: English, Hindi, Telugu, Oriya

Marital Status: Unmarried

Nationality: Indian
